207.552 Definitions.

Sec. 2. (1) "Commission" means the state tax commission created by 1927 PA 360, MCL 209.101 to 209.107.

(2) "Facility" means either a replacement facility, a new facility, or, if applicable by its usage, a speculative building.

(3) "Next Michigan development corporation" means that term as defined in section 3 of the next Michigan development act, 2010 PA 275, MCL 125.2953.

(4) "Replacement facility" means 1 of the following:

(a) In the case of a replacement or restoration that occurs on the same or contiguous land as that which is replaced or restored, industrial property that is or is to be acquired, constructed, altered, or installed for the purpose of replacement or restoration of obsolete industrial property together with any part of the old altered property that remains for use as industrial property after the replacement, restoration, or alteration.

(b) In the case of construction on vacant noncontiguous land, property that is or will be used as industrial property that is or is to be acquired, constructed, transferred, or installed for the purpose of being substituted for obsolete industrial property if the obsolete industrial property is situated in a plant rehabilitation district in the same city, village, or township as the land on which the facility is or is to be constructed and includes the obsolete industrial property itself until the time as the substituted facility is completed.

(5) "New facility" means new industrial property other than a replacement facility to be built in a plant rehabilitation district or industrial development district.

(6) "Local governmental unit" means a city, village, township, or next Michigan development corporation located in this state. For purposes of this act, if a next Michigan development corporation establishes a plant rehabilitation district or an industrial development district, the next Michigan development corporation shall act as the local governmental unit in establishing and operating the plant rehabilitation district or the industrial development district.

(7) "Industrial property" means land improvements, buildings, structures, and other real property, and machinery, equipment, furniture, and fixtures or any part or accessory whether completed or in the process of construction comprising an integrated whole, the primary purpose and use of which is the engaging in a high-technology activity, operation of a strategic response center, operation of a motorsports entertainment complex, operation of a logistical optimization center, operation of qualified commercial activity, operation of a major distribution and logistics facility, the manufacture of goods or materials, creation or synthesis of biodiesel fuel, or the processing of goods and materials by physical or chemical change; property acquired, constructed, altered, or installed due to the passage of proposal A in 1976; the operation of a hydro-electric dam by a private company other than a public utility; or agricultural processing facilities. Industrial property includes facilities related to a manufacturing operation under the same ownership, including, but not limited to, office, engineering, research and development, warehousing, or parts distribution facilities. Industrial property also includes research and development laboratories of companies other than those companies that

manufacture the products developed from their research activities and research development laboratories of a manufacturing company that are unrelated to the products of the company. For applications approved by the legislative body of a local governmental unit between June 30, 1999 and December 31, 2007, industrial property also includes an electric generating plant that is not owned by a local unit of government, including, but not limited to, an electric generating plant fueled by biomass. For an industrial development district created before July 1, 2010, industrial property also includes an electric generating plant that is fueled by biomass that is not owned by a unit of local government if the electric generating plant involves the reuse of a federal superfund site remediated by the United States environmental protection agency and an independent study has concluded that the electric generating plant would not have an adverse effect on wood supply of the area from which the wood supply of the electric generating plant would be derived. An electric generating plant described in the preceding sentence is presumed not to have an adverse impact on the wood supply of the area from which the wood supply of the electric generating plant would be derived if the company has a study funded by the United States department of energy and managed by the department of energy, labor, and economic growth that concludes that the electric generating plant will consume not more than 7.5% of the annual wood growth within a 60-mile radius of the electric generating plant. Industrial property also includes convention and trade centers in which construction begins not later than December 31, 2010 and is over 250,000 square feet in size or, if located in a county with a population of more than 750,000 and less than 1,100,000, is over 100,000 square feet in size or, if located in a county with a population of more than 26,000 and less than 28,000, is over 30,000 square feet in size. Industrial property also includes a federal reserve bank operating under 12 USC 341, located in a city with a population of 600,000 or more. Industrial property may be owned or leased. However, in the case of leased property, the lessee is liable for payment of ad valorem property taxes and shall furnish proof of that liability. For purposes of a local governmental unit that is a next Michigan development corporation, industrial property includes only property used in the operation of an eligible next Michigan business, as that term is defined in section 3 of the Michigan economic growth authority act, 1995 PA 24, MCL 207.803. (11) "Manufacture of goods or materials" or "processing of goods or materials" means any type of operation that would be conducted by an entity included in the classifications provided by sector 31-33 — manufacturing, of the North American industry classification system, United States, 1997, published by the office of management and budget, regardless of whether the entity conducting that operation is included in that manual.

The legislative body of the local governmental unit and the commission may approve or deny the amended application. If the commission previously issued a certificate for the original application and approves an amended application under this subsection, the commission shall issue an amended certificate for the amended application with the same effective date as the original certificate.

207.557a Cost of facility exceeding certain amount of state equalized value.

Sec. 7a. If, after reviewing the application described in section 7, the commission determines that the cost of the facility exceeds \$150,000,000.00 of state equalized value, then all of the following apply:

(a) The replacement, restoration, or construction of the facility shall be completed within 6 years of the effective date of the initial industrial facilities exemption certificate or a greater time as authorized by the commission for good cause.

(b) The commission shall provide not more than 3 separate industrial facilities exemption certificates for the facility. The initial industrial facilities exemption certificate shall be effective for not more than 14 years. The second industrial facilities exemption certificate shall be effective 2 years after the initial industrial facilities exemption certificate becomes effective and shall continue to be effective for not more than 14 years. The third industrial facilities exemption certificate shall be effective 4 years after the initial industrial facilities exemption certificate becomes effective and shall continue to be effective for not more than 14 years. The commission may modify each certificate during the replacement, restoration, or construction of the facility.

(c) For each industrial facilities exemption certificate, the commission shall determine the portion of the facility to be completed. During the first 2 years of the industrial facilities exemption certificate period, the state equalized valuation of that portion of the facility shall be used to calculate the industrial facilities tax as provided in section 14. Upon the expiration of each industrial facilities exemption certificate or its revocation under section 15, that portion of the facility is subject to the general ad valorem property tax.

(d) Notwithstanding subdivision (b), an industrial facilities exemption certificate for a facility described in this section shall expire not more than 12 years from the completion of the facility.

exemption certificate is in effect, but not the land on which the facility is located or to be located or inventory of the facility, for the period on and after the effective date of the certificate and continuing so long as the industrial facilities exemption certificate is in force, is exempt from ad valorem real and personal property taxes and the lessee, occupant, user, or person in possession of that facility for the same period is exempt from ad valorem taxes imposed under Act No. 189 of the Public Acts of 1953, being sections 211.181 and 211.182 of the Michigan Compiled Laws.

207.559 Finding and determination in resolution approving application for certificate; valuation requiring separate finding and statement; compliance with certain requirements as condition to approval of application and granting of certificate; demolition, sale, or transfer of obsolete industrial property; certificate applicable to speculative building; procedural information; replacement facility; property owned or operated by casino; issuance of certificates.

Sec. 9. (1) The legislative body of the local governmental unit, in its resolution approving an application, shall set forth a finding and determination that the granting of the industrial facilities exemption certificate, considered together with the aggregate amount of industrial facilities exemption certificates previously granted and currently in force, shall not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of a taxing unit that levies an ad valorem property tax in the local governmental unit in which the facility is located or to be located. If the state equalized valuation of property proposed to be exempt pursuant to an application under consideration, considered together with the aggregate state equalized valuation of property exempt under certificates previously granted and currently in force, exceeds 5% of the state equalized valuation of the local governmental unit, the commission, with the approval of the state treasurer, shall make a separate finding and shall include a statement in the order approving the industrial facilities exemption certificate that exceeding that amount shall not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of an affected taxing unit.

(2) Except for an application for a speculative building, which is governed by subsection (4), the legislative body of the local governmental unit shall not approve an application and the commission shall not grant an industrial facilities exemption certificate unless the applicant complies with all of the following requirements:

(a) The commencement of the restoration, replacement, or construction of the facility occurred not earlier than 12 months before the filing of the application for the industrial facilities exemption certificate. If the application is not filed within the 12-month period, the application may be filed within the succeeding 12-month period and the industrial facilities exemption certificate shall in this case expire 1 year earlier than it would have expired if the application had been timely filed. This subdivision does not apply for applications filed with the local governmental unit after December 31, 1983.

(b) For applications made after December 31, 1983, the proposed facility shall be located within a plant rehabilitation district or industrial development district that was duly established in a local governmental unit eligible under this act to establish a district and that was established upon a request filed or by the local governmental unit's own initiative taken before the commencement of the restoration, replacement, or construction of the facility.

(c) For applications made after December 31, 1983, the commencement of the restoration, replacement, or construction of the facility occurred not earlier than 6 months before the filing of the application for the industrial facilities exemption certificate.

(d) The application relates to a construction, restoration, or replacement program that when completed constitutes a new or replacement facility within the meaning of this act and that shall be situated within a plant rehabilitation district or industrial development district duly established in a local governmental unit eligible under this act to establish the district.

(e) Completion of the facility is calculated to, and will at the time of issuance of the certificate have the reasonable likelihood to create employment, retain employment, prevent a loss of employment, or produce energy in the community in which the facility is situated.

(f) Completion of the facility does not constitute merely the addition of machinery and equipment for the purpose of increasing productive capacity but rather is primarily for the purpose and will primarily have the effect of restoration, replacement, or updating the technology of obsolete industrial property. An increase in productive capacity, even though significant, is not an impediment to the issuance of an industrial facilities

exemption certificate if other criteria in this section and act are met. This subdivision does not apply to a new facility.

(g) The provisions of subdivision (c) do not apply to a new facility located in an existing industrial development district owned by a person who filed an application for an industrial facilities exemption certificate in April of 1992 if the application was approved by the local governing body and was denied by the state tax commission in April of 1993.

(h) The provisions of subdivisions (b) and (c) and section 4(3) do not apply to 1 or more of the following:

An industrial facilities exemption certificate described in this subparagraph shall expire as provided in section 16(3).

An industrial facilities exemption certificate described in this subparagraph shall expire as provided in section 16. The facility described in this subparagraph shall be taxed under this act as if it was granted an industrial facilities exemption certificate in October 2001, and a corrected tax bill shall be issued by the local tax collecting unit if the local tax collecting unit has possession of the tax roll or by the county treasurer if the county has possession of the tax roll. If granting the industrial facilities exemption certificate under this subparagraph results in an overpayment of the tax, a rebate, including any interest and penalties paid, shall be made to the taxpayer by the local tax collecting unit if the local tax collecting unit has possession of the tax roll or by the county treasurer if the county has possession of the tax roll within 30 days of the date the exemption is granted. The rebate shall be without interest.

(vii) A new facility located in an existing industrial development district owned by a person who filed or amended an application for an industrial facilities exemption certificate for personal property in June 2006 if the application was approved by the legislative body of the local governmental unit in August 2006 but not submitted to the state tax commission until 2007. (i) The provisions of subdivision (c) do not apply to any of the following:

(3) If the replacement facility when completed will not be located on the same premises or contiguous premises as the obsolete industrial property, then the applicant shall make provision for the obsolete industrial property by demolition, sale, or transfer to another person with the effect that the obsolete industrial property shall within a reasonable time again be subject to assessment and taxation under the general property tax act, 1893 PA 206, MCL 211.1 to 211.155, or be used in a manner consistent with the general purposes of this act, subject to approval of the commission.

(4) The legislative body of the local governmental unit shall not approve an application and the commission shall not grant an industrial facilities exemption certificate that applies to a speculative building unless the speculative building is or is to be located in a plant rehabilitation district or industrial development district duly established by a local governmental unit eligible under this act to establish a district; the speculative building was constructed less than 9 years before the filing of the application for the industrial facilities exemption certificate; the speculative building has not been occupied since completion of construction; and the speculative building otherwise qualifies under subsection (2)(e) for an industrial facilities exemption certificate. 207.561 Industrial facility tax; payment; disbursements; allocation; receipt or retention of tax payment by local or intermediate school district; disposition of amount disbursed to local school district; facility located in renaissance zone; building or facility owned or operated by qualified start-up business; "qualified start-up business" defined.

Sec. 11. (1) Except as provided in subsections (6) and (7), there is levied upon every owner of a speculative building, a new facility, or a replacement facility to which an industrial facilities exemption certificate is issued a specific tax to be known as the industrial facility tax and an administrative fee calculated in the same manner and at the same rate that the local tax collecting unit imposes on ad valorem taxes collected under the general property tax act, 1893 PA 206, MCL 211.1 to 211.155.

(2) The industrial facility tax and administrative fee are to be paid annually, at the same times, in the same installments, and to the same officer or officers as taxes and administrative fees, if any, imposed under the general property tax act, 1893 PA 206, MCL 211.1 to 211.155, are payable. Except as otherwise provided in this section, the officer or officers shall disburse the industrial facility tax payments received each year to and among the state, cities, townships, villages, school districts, counties, and authorities, at the same times and in the same proportions as required by law for the disbursement of taxes collected under the general property tax act, 1893 PA 206, MCL 211.1 to 211.155. To determine the proportion for the disbursement of taxes under this subsection and for attribution of taxes under subsection (5) for taxes collected under industrial facilities exemption certificates issued before January 1, 1994, the number of mills levied for local school district operating purposes to be used in the calculation shall equal the number of mills for local school district operating purposes levied in 1993 minus the number of mills levied under the state education tax act, 1993 PA 331, MCL 211.901 to 211.906, for the year for which the disbursement is calculated.

(3) Except as provided by subsections (4) and (5), for an intermediate school district receiving state aid under section 56, 62, or 81 of the state school aid act of 1979, 1979 PA 94, MCL 388.1656, 388.1662, and 388.1681, of the amount that would otherwise be disbursed to or retained by the intermediate school district, all or a portion, to be determined on the basis of the tax rates being utilized to compute the amount of the state school aid, shall be paid instead to the state treasury to the credit of the state school aid fund established by section 11 of article IX of the state constitution of 1963. If the sum of any commercial facilities taxes prescribed by the commercial redevelopment act, 1978 PA 255, MCL 207.651 to 207.668, and the industrial facility taxes paid to the state treasury to the credit of the state school aid fund that would otherwise be disbursed to the local or intermediate school district, under section 12 of the commercial redevelopment act, 1978 PA 255, MCL 207.662, and this section, exceeds the amount received by the local or intermediate school district under sections 56, 62, and 81 of the state school aid act of 1979, 1979 PA 94, MCL 388.1656, 388.1662, and 388.1681, the department of treasury shall allocate to each eligible local or intermediate school district an amount equal to the difference between the sum of the commercial facilities taxes and the industrial facility taxes paid to the state treasury to the credit of the state school aid fund and the amount the local or intermediate school district received under sections 56, 62, and 81 of the state school aid act of 1979, 1979 PA 94, MCL 388.1656, 388.1662, and 388.1681. This subsection does not apply to taxes levied for either of the following:

(a) Mills allocated to an intermediate school district for operating purposes as provided for under the property tax limitation act, 1933 PA 62, MCL 211.201 to 211.217a.

(b) An intermediate school district that is not receiving state aid under section 56 or 62 of the state school aid act of 1979, 1979 PA 94, MCL 388.1656 and 388.1662.

(4) For industrial facilities taxes levied before 1994, a local or intermediate school district shall receive or

retain its industrial facility tax payment that is levied in any year and becomes a lien before December 1 of the year if the district files a statement with the state treasurer not later than June 30 of the year certifying that the district does not expect to receive state school aid payments under section 56, 62, or 81 of the state school aid act of 1979, 1979 PA 94, MCL 388.1656, 388.1662, and 388.1681, in the state fiscal year commencing in the year this statement is filed and if the district did not receive state school aid payments under section 56, 62, or 81 of the state school aid act of 1979, 1979 PA 94, MCL 388.1656, 388.1662, and 388.1681, for the state fiscal year concluding in the year the statement required by this subsection is filed. However, if a local or intermediate school district receives or retains its summer industrial facility tax payment under this subsection and becomes entitled to receive state school aid payments under section 56, 62, or 81 of the state school aid act of 1979, 1979 PA 94, MCL 388.1656, 388.1662, and 388.1681, in the state fiscal year commencing in the year in which it filed the statement required by this subsection, the district immediately shall pay to the state treasury to the credit of the state school aid fund an amount of the summer industrial facility tax payments that would have been paid to the state treasury to the credit of the state school aid fund under subsection (3) had not this subsection allowed the district to receive or retain the summer industrial facility tax payment.

(5) For industrial facilities taxes levied after 1993, the amount to be disbursed to a local school district, except for that amount of tax attributable to mills levied under section 1211(2) or 1211c of the revised school code, 1976 PA 451, MCL 380.1211 and 380.1211c, and mills that are not included as mills levied for school operating purposes under section 1211 of the revised school code, 1976 PA 451, MCL 380.1211, shall be paid to the state treasury and credited to the state school aid fund established by section 11 of article IX of the state constitution of 1963.

(6) A speculative building, a new facility, or a replacement facility located in a renaissance zone under the Michigan renaissance zone act, 1996 PA 376, MCL 125.2681 to 125.2696, is exempt from the industrial facility tax levied under this act to the extent and for the duration provided pursuant to the Michigan renaissance zone act, 1996 PA 376, MCL 125.2681 to 125.2696, except for that portion of the industrial facility tax attributable to a special assessment or a tax described in section 7ff(2) of the general property tax act, 1893 PA 206, MCL 211.7ff. The industrial facility tax calculated under this subsection shall be disbursed proportionately to the local taxing unit or units that levied the special assessment or the tax described in section 7ff(2) of the general property tax act, 1893 PA 206, MCL 211.7ff.

(7) Upon application for an exemption under this subsection by a qualified start-up business, the governing body of a local tax collecting unit may adopt a resolution to exempt a speculative building, a new facility, or a replacement facility of a qualified start-up business from the collection of the industrial facility tax levied under this act in the same manner and under the same terms and conditions as provided for the exemption in section 7hh of the general property tax act, 1893 PA 206, MCL 211.7hh. 207.564 Industrial facility tax; amount of tax; determination; "industrial personal property" defined; termination or revocation; reduction.

Sec. 14. (1) The amount of the industrial facility tax, in each year for a replacement facility, shall be determined by multiplying the total mills levied as ad valorem taxes for that year by all taxing units within which the facility is situated by the taxable value of the real and personal property of the obsolete industrial property for the tax year immediately preceding the effective date of the industrial facilities exemption certificate after deducting the taxable value of the land and of the inventory as specified in section 19.

(2) The amount of the industrial facility tax, in each year for a new facility or a speculative building for which an industrial facilities exemption certificate became effective before January 1, 1994, shall be determined by multiplying the taxable value of the facility excluding the land and the inventory personal property by the sum of 1/2 of the total mills levied as ad valorem taxes for that year by all taxing units within which the facility is located other than mills levied for school operating purposes by a local school district within which the facility is located or mills levied under the state education tax act, 1993 PA 331, MCL 211.901 to 211.906, plus 1/2 of the number of mills levied for local school district operating purposes in 1993.

(3) Except as provided in subsection (4), the amount of the industrial facility tax in each year for a new facility or a speculative building for which an industrial facilities exemption certificate becomes effective after December 31, 1993, shall be determined by multiplying the taxable value of the facility excluding the land and the inventory personal property by the sum of 1/2 of the total mills levied as ad valorem taxes for that year by all taxing units within which the facility is located other than mills levied under the state education tax act, 1993 PA 331, MCL 211.901 to 211.906, plus, subject to section 14a, the number of mills levied under the state education tax act, 1993 PA 331, MCL 211.901 to 211.906.

(4) For taxes levied after December 31, 2007, for the personal property tax component of an industrial facilities exemption certificate for a new facility or a speculative building that is sited on real property classified as industrial real property under section 34c of the general property tax act, 1893 PA 206, MCL 211.34c, the amount of the industrial facility tax in each year for a new facility or a speculative building shall be determined by multiplying the taxable value of the facility excluding the land and the inventory personal property by the sum of 1/2 of the total mills levied as ad valorem taxes for that year by all taxing units within which the facility is located other than mills levied on industrial personal property under the state education tax act, 1993 PA 331, MCL 211.901 to 211.906, and the number of mills from which industrial personal property is exempt under section 1211(1) of the revised school code, 1976 PA 451, MCL 380.1211. For taxes levied after December 31, 2007, for the personal property tax component of an industrial facilities exemption certificate for a new facility or a speculative building that is sited on real property classified as commercial real property under section 34c of the general property tax act, 1893 PA 206, MCL 211.34c, the amount of the industrial facility tax in each year for a new facility or a speculative building shall be determined by multiplying the taxable value of the facility excluding the land and the inventory personal property by the sum of 1/2 of the total mills levied as ad valorem taxes for that year by all taxing units within which the facility is

located other than the number of mills from which the property is exempt under section 1211(1) of the revised school code, 1976 PA 451, MCL 380.1211. As used in this subsection, "industrial personal property" means the following:

(a) Except as otherwise provided in subdivision (b), personal property classified under section 34c of the general property tax act, 1893 PA 206, MCL 211.34c, as industrial personal property.

(b) Beginning December 31, 2011, industrial personal property does not include a turbine powered by gas, steam, nuclear energy, coal, or oil the primary purpose of which is the generation of electricity for sale.

(5) For a termination or revocation of only the real property component, or only the personal property component, of an industrial facilities exemption certificate as provided in this act, the valuation and the tax determined using that valuation shall be reduced proportionately to reflect the exclusion of the component with respect to which the termination or revocation has occurred.
